CLAVE, HAS SEAT-ING CAPACITY OF **DVER 12,000.**

RIGGER THAN MADESON SQUARE

Stury On The Great Hall In Denvar Where The Question Of The Bour Is To Be Decided -Nome Pacts And Fig-

The increment class of myriad ham-more is slowly dying, the ecor of the alest riveters has been lost with the sheel riveters has been lost with the ring of the thowel on the gray squares of reasted clay; a massive structure stands where but a few months previous was an chicago hole to the analy soil and we belief magnificent and impressive Dictor's auditionation almost ready for occupancy. An half million dollar monument to the enterprise of a crowing mesher of the and a lost inside of the section reserved for price of a growing western city and a just inside of the section reserved for what reminder of what indomitable. whent reminder of what indomitable purpose is capable of accomplishing in a short time. One sampaly realizes what a large structure the auditorium is until they have viewed the interior with its high celling and broad stretch of forcing.

The actual seating capacity of the pallacony will be 3,25 and of the gallacy 1,880. This makes a total of 11,561 seats, but at least 600 more people can be accommodated in an emergency.

Costing \$500,000, seating 12,500 pec- The Auditorium is constructed ple, minutaining probably the most per- without pillars or posts to obstruct fect heating and ventilating system the view, and the accessic properties of any public building in the world, will be so perfect that a speaker can must's monster Auditorium will be heard from any part of the build-

National Convention, which will con- A band of music will be statione vene in the Auditorium July 7, have in each talousy. A signal wire will been completed by the national com- will be run from each band stand to the desk of the sergeant-at-arms, so

The hall will accommodate more that the music programme can be than 12,000 people, and the first floor governed at will. will have 6,000 regular seats.

STAGE IS NEAR THE CENTER. The Auditorium is constructed so that the huge stage is near the center of the building. Being built on this plan, one-half of the structure can be used as a theater, the other half being entirely shut off by the files and wings of the slage. On the occasion of a big convention the stage scenery and equipment can be elevated to a storage roof and the entire building. In summer the Leating apparatos. and equipment can be elevated to a storage roof and the entire building converted into a huge convention hall, with a halcomy circling the whole structure and a large gallery at both ends.

SEATS MORE THAN COLLEGER.

The building is 266 by 206 feet in 1,280-CANDLE-POWER LAWPS. One of the great objections to ordin One of the great objections to ordining. Its seating capacity is breer than Madison Square Garden in New York, which holds 11,000 people, the great Colmeum in Chicago, where the Hopablican convention is to be held in June, which holds 11,000 people, or the Murmon Tabermade in Sait Lake, which seats 10,000 people. There are twenty-from exits, including 240 linear feet of exit space, and the notifiers.

feet of exit space, and the building by arc lights. There also will be 10,000 [smalls can be emptied in two minutes. In preparation for the convention lamps arranged about various parts of

the rostrum and platform will be the building.

The Auditorium is built of brick, torium, with the seats for the dele- stone concrete and steel, and is congates and alternates extending along structed for permanency. the floor of the stage proper.

the floor of the stage proper.

COMMITTERMEN'S SEATS RESERVED.

On the platform will be 445 seats, which will be reserved for the members of the National Committee and Savings Bank. for the guests of bonor. The number of seats on the rostrum will be 161. Directly in front of the chairman's

platform on the rostrom will be four A General Banking Business seats and tables for the noiseless tele. seats and tables for the noiseless tele graph instruments of the news service. Additional room for these news services and for the telegraph companies is arranged in the basement. Desks and seats for the newspaper

correspondents and special writers will be arranged in a half circle about the restrum to such a manner as to give each writer an unobstructed view of the speaker and within easy hearing distance. There will be 303 scats in this section, each scat having a space twenty-four inches wide. DELEGATES IN CENTER. Seats for the delegates in front of

the custrum are arranged nearly in the center of the building. The exactnumber of seats is 1,005, and immedlately behind this section are the seats of the alternates; also 1005 in The main entrance of the Auditor

ium will be on Curtis street. On this side, extending back from the sections to be occupied by the delegates and Building, next to Hopkins & Edmond alternates, will be 1,073 seats for the

What Do They Cure?

What Do They Unre!

The above question is often asked converning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a mean potent alterative or blood-partifier, and tonic or invigorator and acts especially favorably in a curative way upon all the innones lining surfaces, as of the massi passages, throat, broading-curing a large per cent of catarrial cakes whether the discovery of the catalog of the catalog
